SOLIS Precision Balances

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / animal weighing
- Accumulation
- Density determination
- Display hold
- Formulation

Features

- High-resolution graphic display is amply sized for clear visibility
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results
- Security slot for optional Kensington-type lock and cable to help prevent theft
- Large, grade 304 stainless steel pan allows swift cleaning
- RS-232 interface is available to provide speedy connection to computers and printers
- Case and draft shield designed to reduce static electrical interference with the balance
- External calibration allows for verification and adjustment with weights
- Selectable digital filtering helps minimize effects of vibration and disturbances
- Security password control prevents unauthorized access
- Printouts include date and time for data tracking within Good Laboratory Practices (GLP) guidelines
- Multilingual display permits use in various regions
- Memory accumulation totals results
- Checkweighing with audible alarm
- Parts counting with preset sample sizes
- AC adapter included

Shipping weight & dimensions:

PMB Moisture Analyzers

Applications

- Weighing
- Moisture Determination

Features

- RS-232 interface
- USB host for memory stick download USB I/O interface
- Built-in memories for storing products and settings
- 3 settings for heating sample, ramp up, step and standard
- Automatic test start setting for when the lid is closed
- Pan lifter to easily remove samples
- Large backlit display with dual text prompts
- Security locking slot for Kensington™ type lock and cable
- Operation in English, French, Spanish and German
- Prints results in selected language
- Mains Power

TBB Mechanical Balances

Applications

- Weighing
- Below balance weighing
- Density of solids

Features

- Security slot for optional Kensington-type lock and cable
- Magnetic damping slows pointer movement for faster readings
- Notched, tiered, graduated beams ensure positive positioning and accurate reading of results
- Integrated rulers in centimeters and inches lets users measure length
- Rigid metal construction for durability
- Zero adjust facility to enable zero reading
- Stainless steel weighing pan
- Weight holders for storing additional weights
- Tripod legs and weigh below hook included for density determination measurements
- Tare function capable of 225g with TBB 2610T

Shipping Weight: 4kg Dims: 56 x 18 x 24cm (single)

Shipping Weight: 17kg Dims: 57 x 39 x 50cm (box of 4)

MTB Baby and Toddler Scale

Applications

- Weighing
- Baby Weighing / Toddler Weighing

Features

- **Baby and Toddler Scale**
- Cradle can be removed for weighing toddlers on the non-slip rubber mat
- Memory features can recall the last weight used allowing the user to focus on the baby or toddler
- High-contrast display is easily visible from a distance
- Ergonomic cradle provides comfortable support
- Lightweight design simplifies transport and portability
- Auto power-off to save energy
- External calibration allows for verification and adjustment with weights
- Simple operation allows quick startup and use with little or no training
- Operates with AC adapter (included) or batteries (not included)

Shipping Weight: 4.18kg Dims: 61 x 38 x 19cm

Shipping Weight: 13kg Dims: 62 x 56 x 40cm (box of 3)

MDW 300L Digital BMI Physician Scale

Applications

- Weighing
- Measuring height

Features

- Anti-slip platform
- Large, clear LED display
- Sealed Keypad
- Hold Function
- Rechargeable Battery and Mains Power
- Robust painted mild steel base
- Weighing in kg and lb
- Adjustable height rod (measures up to 210cm)
- Enhanced height rod
- BMI-Body Mass index
- Wheels for easy moving
- RS-232 Interface

Shipping Weight: 17kg Dims: 132 x 53 x 18cm

MUW Ultrasonic BMI Health and Fitness Scale

Applications

- BMI-Body Mass Index Auto Calculation
- Weighing
- Measuring Height

Features

- **Ultrasonic BMI Scale**
- Ultrasonic sensor measures height up to 210cm and automatically calculates BMI
- Backlit LCD with 17mm-high digits shows height, weight and BMI on one screen
- Color-coded keys facilitate quick recognition of the most frequently used buttons
- RS-232 interface for connection to computers and printers
- Printout can include a patient and doctor ID, as well as BMI measurements
- Integrated wheels permit easy movement
- Anti-slip platform ensures safety stepping on and off the scale
- Requires no manual adjustment, capturing all measurements with the push of a button.
- Patients and medical professionals are able to simultaneously view height, weight and BMI information on the large backlit LCD, eliminating the need to scroll through data
- Weighing units: kg, lb, lb:oz
- Power supply 12VDC 800mA adapter / Internal rechargeable battery included

CPWPlus L Veterinarian Scale

Applications

- Weighing
- Animal / Dynamic weighing

Features

- 4 Weighing units (kg, g, lb, oz)
- Remote indicator with wall mounting kit included
- Hold function
- Full range tare
- Zero Tracking
- External calibration
- Simple 4 button operation
- Large backlit LCD display
- Large stainless steel platform
- Splashproof to protect from accidental spills
- Non-slip adjustable levelling feet
- Rechargeable Battery and Mains Power
- Four load cell construction
- Colour coded keys
- Modern low profile design
- RS-232 bi-directional interface
- Auto sleep / power down function to save battery life
- Low battery indication

Aqua Washdown Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing

Features

- IP67-rated for protection against water and dust
- External calibration allows for verification and adjustment with weights
- Sealed keypad protects against dirt and spills
- Overload protection helps prevent damage to internal components
- Solid ABS housing is durable for industrial use
- Heavy-duty rubber feet ensure stability of unit
- Bright LED display for easy viewing in most environments
- Checkweighing LEDs clearly show under, over and within acceptable limits
- Front and rear 20mm LED displays allow for dual use
- Zero-tracking feature ensures display returns to zero reading
- The auto power-off feature conserves battery life
- Rechargeable battery included for operation almost anywhere
- Stabilization time of within 1 second
- AC adapter included

BKT Bench and Floor Label Printing Checkweighing Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / animal weighing
- Accumulation of weight
- Display hold
- Peak hold
- Barcode / label printing

Features

- Built in printer to print labels with weight, average piece weight, product description, date, time, and QR codes
- Vivid, backlit LCD easily visible in any lighting conditions
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results
- Large, grade 304 stainless steel pan allows easy cleaning
- RS-232 interface is available to provide speedy connection to computers and printers
- Rugged construction stands up to industrial use
- Sealed keypad protects against dirt and spills
- Overload protection helps prevent damage to internal components
- Checkweighing with audible alarm and hold function
- Memory accumulation totals results
- Customise label information with software provided to include QR codes, date, time net, gross, tare weights etc...
- Selectable digital filtering helps minimise effects of vibration and disturbances
- Zero-tracking feature ensures display returns to zero reading
- Rechargeable battery included for operation almost anywhere
- Programmable auto power-off to save energy
- Fixed label size

GFK-M Floor Checkweighing Scales (Trade Approved)

Applications

- Trade Approved Weighing
- Parts counting
- Check weighing
- Check counting
- Dynamic/Animal weighing

Features

- EC & Australian type-approved
- Bi-directional RS-232 output for connection to computers and printers
- Automatic external calibration
- Solid metal construction
- Grade 304 stainless steel pan
- Indicator, ABS plastic housing
- Pre-set tare
- Automatic accumulation
- Auto power off
- Hold function
- Capacity tracker
- Real time clock and date
- Selectable multi-language text
- LED indicator for check weighing
- Rechargeable battery and Mains Power

Cruiser CCT Bench Counting Scales

Applications

- Weighing
- Check weighing
- Parts counting
- accumulating memory
- pre-set count with alarm

Features

- Backlit LCD shows weight, unit weight and count in one convenient location
- Color-coded keys facilitate quick recognition of the most frequently used buttons
- RS-232 interface is available to provide speedy connection to computers and printers
- Optional USB interface simplifies data communication
- Solid ABS housing is durable for industrial use
- Adjustable leveling feet help optimize setup
- Built-in memory for storing products and settings
- External calibration allows for verification and adjustment with weights
- Internal counting resolution 1:600,000 for precise results
- Parts counting optimization automatically refines piece weight as parts are added
- Parts counting with freely selectable sample sizes
- Preset tare function speeds the process of repetitive weighing
- Programmable for counting to a preset number of parts
- AC adapter included
- Programmable auto power-off to save energy
- Rechargeable battery included for operation almost anywhere

PT Heavy Duty Platform Scale Including AE503 Label Printing Indicator

Features

- Rugged construction stands up to industrial use
- Chequered plate surface for added grip
- Approximately three-meter shielded cable
- Four load cell construction
- Overload protection
- Mild steel construction
- Built in printer to print weight, date, time, description etc...
- Vivid, backlit LCD easily visible in any lighting conditions
- Programmable backlight can be set to "always on," "always off" or "light only when weighing" • Color-coded keys facilitate quick recognition of the most frequently used buttons
- Bi-directional RS-232 output for connection to computers and printers
- Zero-tracking feature ensures display returns to zero reading
- Checkweighing with audible alarm and hold function
- Quick and easy configuration using the keypad
- User-selectable scale division
- Mains and Rechargeable Battery Power
- Programmable auto power-off to save energy
- Customise label information with software provided to include QR codes, date, time, net, gross, tare weights, etc...
- Fixed label size

Shipping Weight: PT Base - 135kg Dims: 125 x 125 x 20cm base only (shipped on pallet, excl indicator)

AELP Heavy Duty Pallet Weighing Beams Including AE503 Label Printing Indicator

Features

- Simple user-friendly operation
- Lightweight with wheels and handles for portability
- Low profile beams make pallet weighing easy with pallet trucks
- Two beams per set
- Large, clear backlit LCD display
- Selectable digital filtering
- Bi-directional RS-232 output for connection to computers and printers
- Mains and Rechargeable Battery Power
- Four loadcell construction
- Built in printer to print weight, date, time, description etc...
- Vivid, backlit LCD easily visible in any lighting conditions
- Programmable backlight can be set to "always on," "always off" or "light only when weighing"
- Color-coded keys facilitate quick recognition of the most frequently used buttons
- Rugged construction stands up to industrial use
- Zero-tracking feature ensures display returns to zero reading
- Checkweighing with audible alarm and hold function
- Quick and easy configuration using the keypad
- Programmable auto power-off to save energy
- Customise label information with software provided to include QR codes, date, time, net, gross, tare weights, etc...
- Fixed label size

Shipping Weight: Beams - 36kg Dims: 140 x 35 x 16cm (Excl indicator)

AE403 Washdown Indicator

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / animal weighing

Features

- Backlit display changes color for quick notification of checkweighing limits
- Capacity tracker built into display for easily monitoring possible overloads
- Color-coded keys facilitate quick recognition of the most frequently used buttons
- Rugged 304 stainless steel construction for ultimate durability
- RS-232 interface is available to provide speedy connection to computers and printers
- Wall-mount bracket for placing indicator on vertical surface
- External calibration allows for verification and adjustment with weights
- Checkweighing with audible alarm
- Hold function freezes the displayed weight, allowing time to elapse without losing the result
- Parts counting with preset sample sizes
- Selectable digital filtering helps minimize effects of vibration and disturbances
- User-selectable scale division
- Zero-tracking feature ensures display returns to zero reading
- **IP67-rated** for protection against water and dust
- Rechargeable battery included for operation almost anywhere
- Programmable auto power-off to save energy

Warranties

The below warranty periods are standard for all products from Adam Equipment. Product found to be defective will either be replaced, or at Adam's option, repaired during the warranty period at no charge provided that the product is returned freight paid to Adam in Perth, Western Australia. Adam Equipment warrants its products from manufacturing defects in materials or workmanship from the date of delivery. If the product is covered under warranty, Adam will be responsible for the return freight costs, if not covered under warranty then freight is to be paid by the customer both ways.
